Guiding Architects Barcelona

Guided tours by the author
Anna Noguera, followed by a
group zumba class in Plaça
Virrei Amat as part of the
neighborhood festivities.
An integral urban regeneration
concentrates two preexisting
facilities in a single sports
building, to free space and
create a large garden that
has become a place of social
relations.

The building is developed with
passive architecture criteria
and materials of low ecological
footprint. The green façade
and the use of wood provide a
warm atmosphere.
